

CIR Systems Inc. creator of *GAITrite*® the “GOLD STANDARD” in Temporal/Spatial GAIT Analysis expands its product line with *GAITrite*® **BASIC**. Designed specifically to meet the needs of the smaller clinical practice with limited space and budget!

GAITrite® **BASIC** – is a truly affordable and accurate objective outcome measurement system that meets the ever expanding demands of today’s healthcare environment. This extension to the *GAITrite*® family is even more portable (lighter, smaller with a narrower profile) making it easy to transport between locations or use in tight spaces.

GAITrite® **BASIC** is the extension of over 20 years of *GAITrite*®’s use worldwide by leaders in both the research and clinical arenas. Used in many disciplines (O & P, PT, Rehab, Orthopedics, Neurology, etc). *GAITrite*® is still the leading tool used in FDA trials and hundreds of research publications produced by leaders in the research community annually.

GAITrite® **BASIC** is simple to use! No need to instrument the patient: they simply walk down the walkway and results are immediately available, ideal for demonstrating to the patient and third parties benefits of your services.

GAITrite® **BASIC** is offered in 2 economically priced lengths (10’ & 12’) and includes **targeted clinical features** from *GAITrite*® at substantial savings making it ideal for your smaller clinical practice!

GAITrite® **BASIC** includes standard reports for most conditions as well as a customizable report generator for patients with multiple conditions.

GAITrite® **BASIC** – Simple, Versatile, True Outcome Measures
